Follow-up Log for Reporting Secondary Placement

This log is a document for use in reporting secondary placement of 2012-13 Perkins IV concentrators. Each concentrator is to be sent a survey. If he or she does not respond, then this log would be used to make follow-up phone calls. A <u>minimum of two</u> attempts to telephone each concentrator should be made. The log should be kept on file in your local school system for a minimum of five years. Feel free to make additional copies as needed.

School System:	School: Date Concentrator Surveys Mailed:
